

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

The LGRVR Water Supply Corporation has violated the monitoring and reporting requirements set by Texas Commission Environmental Quality (TECQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we are doing (or did) to correct these situations.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 2025 we did not monitor or test for lead and copper and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminants we did not properly test for during the last year, how often we are supposed to sample for lead and copper, how many samples we are supposed to take, and how many samples we took, when samples should have been taken, and the date on which the follow-up samples were taken.

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were taken
Lead and copper tap water sampling	Every Three (3) Years	Ten (10)	September 2025	April 2026
Lead and copper entry point sampling				
Water quality parameters				

What is being done?

Water samples have been taken and tested by the state licensed laboratory at the Lower Colorado River Authority. All samples passed required testing. For more information, please contact Eddie Myers or Greg Petrey by calling 682-500-1024 or by email lgrvrwsc@gmail.com or mail, 5711 Coffee Pot Ln, Granbury TX 76049.

Please share this information with all other people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice was sent to you by the LGRVR Water Supply Corporation, Public Water System Number TX1110114. Date Distributed: May 20, 2026.
